Q8. Do the phones need to be 10/100 or 10/100/1000 (Section VI)

A8. 10/100/1000 with a GB connection to computer

Q9. How many parties need to be supported for an average conference?

A9. 2-6

Q10. Section VI, Q asks- "Do you require a software license? Please explain in detail." Please expand on this question to help us understand what is required.

A10. Yes we will need Support\Maintenance\Software licensing as well as the continued cost of the licensing and support after the initial cost per year or in bulk in 3-5 year increments for cost savings. So basically we will need to know after the warranties, licensing, support, i.e. Maintenance after the initial cost of getting all of this started what are recurring cost would be i.e. Support, maintenance, Warranties, software, etc., we would be more interested in bulk buying 3-5 years if there is cost savings.

Q11. In regards to the mobility client and desktop client. Would you want one of each for every user or would there only be a subset of users for each and could you tell me how many that would be?

A11. Quote for all 98
